The Hon. William Casey
Director
Central Intelligence Agency
Washington, DC 20505

Dear Mr. Casey:

Many legal questions were raised before the facts could be fully known during the course of the Grenada mission jointly undertaken by the United States and the OECS countries. Enclosed for your information is a monograph on "Law and the Grenada Mission" published by the Center for Law and National Security in conjunction with Georgetown University's Center for Strategic and International Studies. The monograph concludes the Grenada mission was not only lawful but also served the purposes of the Charters of the United Nations and the Organization of American States.

I hope that you will find the monograph of interest.

With warm regards.

Sincerely,
